

We, the residents, traders and users of Dudley Town Centre and its facilities, sign this petition to show our dismay at the poor state of parking in the town.

We hold the council responsible for the lack of varied shopping and commerce in Dudley, forcing people to shop elsewhere due to poor and inconvenient parking.

We want the council to re-instate the car parking facilities that were historically available and consider further sites for the use of parking.

As councillors, you were elected to ensure the good of the populous, sadly, anything any other than this seems to be the objective of this council.
