In response to your letter of the 11th July, I found the L.A. statement to be clear and easily understood. I have not seen one before and have quickly picked up that The Royal British Legion meets the criteria to be covered by Club Gaming and Club Machine Permits!

I hope this is helpful.

Dear Mrs Elliott,

Re: The Gambling Act 2005 – Revision of Statement of Principles.

Thank you for asking us for our views on your policy on the licensing of gambling in Dudley Borough. We note that in our local context in a very poor part of the Borough gambling often disproportionately affects the poor.

Outlets for gambling (Horse Racing, Slot Machines) are easily available on our High Street, and scratch cards are major sellers at local Supermarkets. In addition to this as a church we sometimes come across people with gambling addictions. We therefore hope that in any way you revise your Statement of Principles you do not do so in such a way as to make gambling more accessible to the population in this area.

Yours sincerely,

S Falshaw
