Community Forums

Guidelines for considering funding applications

Community Forums will consider every funding application on its own individual merits.

Community Forums have discretion to make recommendations on each application taking account of the funding available.

A decision on an individual application will not be seen as setting a precedent for the consideration of any other applications received by the Council or another Community Forum.

Guidelines for considering applications

The following guidelines are to assist elected members in considering funding applications. Individual community forums reserve the right to make exceptions to these guidelines depending on the circumstances of each individual application.

1. Funding may be spent on “capital” and/or “revenue” schemes. (**Capital:** one-off expenditure on buying, constructing or improving land, buildings, equipment or vehicles; **revenue:** expenditure on running costs of projects or activities, including staff costs and the purchase of consumables and services from third parties. Priority will be given to one-off, time-limited, or start-up spend, rather than ongoing running costs which should normally be funded by the organisation itself.)
2. Schemes should contribute to the aims of the Community Strategy and not conflict with Council policy. Schemes should be for the general benefit of the wider community, not just for the benefit of individuals or specific groups and should make a difference in the local area.
3. Funding applications may be submitted to more than one community forum depending on the area(s) of benefit. Each individual forum shall retain discretion over its own funding allocation. A recommendation made by one community forum shall not create an expectation that it will be supported by another forum.
4. Schemes should not result in any on-going revenue costs that the organisation cannot fund from its own resources e.g. running costs or repair and maintenance of buildings and equipment.

5. Individual funding applications should be for a maximum of £5,000 unless there are exceptional circumstances. Organisations will be encouraged to match fund or seek further funding through other means. Priority will be given to schemes that might generate such funding.
6. Applications will not normally be considered from organisations who have previously received funding from a community forum (or former area committee) within the previous three years.
7. Representatives of organisations submitting applications are encouraged to attend the forum meeting and to speak if they wish in support of their applications.
8. Once an application has been approved, it will be on the condition that the funding is spent within nine months, otherwise the funding will be returned to the Council. A fresh application would need to be submitted and approved in order for the funding to be released.
9. In appropriate circumstances, funding may be given on condition that certain items of equipment purchased with the funding are made available for use by other organisations.

High Street Innovation/Empty Shops Grant Funding Applications

10. One-off funding has been made available in the 2014/15 financial year for projects which improve the appearance or economic vitality of an area, with preference to the Borough's Centres and High Streets.
