Community Forums

Guidelines for considering funding applications

Community Forums will consider every funding application on its own individual merits.

Community Forums have discretion to make recommendations on each application taking account of the funding available.

A decision on an individual application will not be seen as setting a precedent for the consideration of any other applications received by the Council or another Community Forum.

Guidelines

The following guidelines are to assist Community Forums in considering funding applications.

Community Forums reserve the right to make exceptions to these guidelines depending on the circumstances of each individual application.

1. The funding allocation may be spent on “capital” and/or “revenue” schemes:

Capital: one-off expenditure on buying, constructing or improving land, buildings, equipment or vehicles;

Revenue: expenditure on running costs of projects or activities, including staff costs and the purchase of consumables and services from third parties. Priority will be given to one-off, time-limited, or start-up spend, rather than ongoing running costs. The latter should normally be funded by the organisation itself.

2. Schemes should contribute to the Community Strategy and should not conflict with Council policy. Consideration will be given to how a scheme fits with wider community initiatives.
3. Schemes should be for the general benefit of the wider community, not just for the benefit of individuals or specific groups and should make a difference in the local area.

4. Funding applications may be submitted to more than one Community Forum depending on the area(s) of benefit. Each individual Forum shall retain discretion over its own funding allocation. A recommendation made by one Community Forum shall not create an expectation that it will be supported by another Forum.
5. Schemes should not result in any on-going revenue costs that the organisation cannot fund from its own resources – e.g. running costs and repair and maintenance of new/improved buildings and equipment.
6. All expenditure must be in accordance with Council Standing Orders and Financial Regulations, be subject to the Council's legal powers and demonstrate good value for money.
7. Individual funding applications should be for a maximum of £5,000 unless there are exceptional circumstances. Organisations will be encouraged to match fund or seek further funding through other means. Priority will be given to schemes that might generate such funding.
8. Applications will not normally be considered from organisations who have previously applied for funding to the Community Forums (or former Area Committees) within the previous three years.
9. Once an application has been approved, it will be on the condition that the commitment is spent within nine months; otherwise the allocation will be returned back into the available budget and a fresh application would be required.
10. In appropriate circumstances, it may be required that certain items of equipment funded by these allocations are to be made available for use by other organisations.
