Hi, Kay,

DUDLEY TOWN CENTRE

STREET TRADER APPLICATION FOR JOHN P. SOMERVILLE

Dudley Town Centre already has a number of existing cafes, restaurants and sandwich bars.

Further obstructions introduced by new Street Traders' mobile vans on the public highway would affect progress by vulnerable highway users including pedestrians, parents with prams and wheelchair users.

Best wishes,

Peter Vangeersdaele

Hello Kay,

I am a little concerned that we are approaching 'saturation' point with mobile traders in the town centres. These mobile traders add considerably to the 'street clutter' of the highway and obstruction of the highway is one of the main sources of complaint that we receive from pedestrians in town centre areas.

Given that there is a dedicated market place in Dudley, with presumably stalls available to rent, I can see no advantage to having another mobile trader in place on the pedestrianised area of the town, increasing vehicle movement in an area where vehicles are generally prohibited.

Regards

Alan
