Notes:

1. The population figures are based on aggregations of Electoral Wards.
2. 2010 is the latest year for which Mid-Year Population Estimates are available. The scope of these Mid-Year estimates is limited to population figures by age and sex; other demographic and socio-economic data at the ward level is available but must be sourced from the 2001 Census.
3. Data from the 2011 Census at the Ward level is due to be published in the second phase of 2011 Census outputs scheduled for November 2012 - February 2013.
This will enable the data presented here to be updated to give a more accurate picture of the population.
4. The summed variance from average population may not equal the average population due to rounding.
