A report of the Director of Education and Lifelong Learning was submitted on the 14-19 Area Review. An executive summary of the Review was attached as appendix 1.

Following consideration of the report and appendix submitted, several comments and questions were raised by Members in particular regarding: -

- (a) The Chair queried the numbers of school leavers not entering post 16 education and the areas of the Borough these groups were from. In response Mr Fletcher stated that they were generally clustered in the wards that suffered multiple social deprivation. The Chair also commented that the cost of buses and travelling time was a social barrier for residents from these deprived wards.
- (b) In response to a query from Councillor Hart-Bowman regarding tracking the destination of school leavers, Mr Fletcher stated that the strategy aimed to develop stronger partnership links with other education based bodies, such as Connexions and the Learning Skills Council, in order to eliminate duplication of work. The Director of Education and Lifelong Learning further stated that progress was being made with other organisations to ensure a seamless transition from GCSE stage to further education and raising the attainment level.
- (c) Councillor Rahman raised his concerns regarding poor attainment and the low numbers entering further education from deprived areas. In response Mr Fletcher stated that in conjunction with other key organisations, individuals would be successfully tracked and that the action plan would be based on the individual needs of the young person and not the institution. He further stated that children in public care would have specific individual action plans and that funds had been ear marked for this group.
