

Select Committee on Health and Adult Social Care – 7 July 2009

Report of the Director of Adult, Community & Housing Services

Report on the Annual Review of the Directorate Equality and Diversity Action Plan 2008/09

Addendum

Number of tenancies by Ethnicity

We would like to bring to Members' attention an error in the report which states that 22.74% of tenancies were held by BME households. This figure is incorrect and a problem with the accuracy of ethnicity data has been identified. The data is currently being rechecked and validated and we undertake to report back to the Committee once this exercise is completed.
