Dear Dave

Re: Path Running adjacent to 75 Maughan Street and 9 Park Road, Quarry Bank.

I have been requested to write to you by the Forum in relation to the above, indicating that members of the Forum note that the situation has vastly improved, however there remains a large amount of litter at the Park Road entrance that should be removed, and they have consider that the path should be regularly maintained, although they note that there may be an under funding issue.

I would be grateful if you would let me know the up to date position prior to the next meeting of the Forum on 17th November, 2008.

Many thanks

Kim.
